

The exam was 60 Q's, and it was spread out, u need to find it !

1) Where does the bile canalicule start?

- a) central vein
- b) portal vein
- c) spaces of disse
- d) liver sinusoids
- e) hepatic acinus

2) Damage in the glossopharyngeal nerve results in:

- a) decreased saliva secretions
- b) paralysis of palatoglossus muscle

3) concerning foliate papilla

- a) found on the sides of the tongue

4) Which of the following isn't found in the bed of the stomach

- a) liver
- b) pancreas
- c) left kidney
- d) splenic artery

5) The mesentery crosses the following structures except

- a) pancreas
- b) duodenum
- c) right ureter
- d) ovarian vessel

6) about acetaminophene

- a) causes more damage with alcohol
- b) causes liver cholestasis
- c) N-acetylbenoquinine amine is antidote

7) the True matching

- a) Bisacodyl ---→ oral
- b) Methylcellulose -→ rectal

8) concerning loperamide

- a) active orally
- b) slow down the movement of ...

9) not a side effect of cimetidine

- a) irreversible Gynecomastia
- b) Prolactin release
- c) Headache
- d) Inhibition? Of cytochrome p450

10) extrapyramidal dystonia, what is false

- a) caused by high dose of metoclopramide

- b) has torticollis
  - c) antidote by benztropine
  - d) Domperidone doesn't cause extrapyramidal dystonia
- 11) The best method to determine if a patient with hepatitis
- a) to perform an HCV RNA test
- 12) true sentence is
- a) Norwalk like viruses affects all age group while rotavirus affects children only
- 13) staphylococcus aureus , 3 hours poisoning
- 14) which of the following can't be identified by its egg
- a) Strongyloides stercoralis
- 15) which one causes autoinfection
- a) strongyloides stercoralis
- 16) causes cardiac tamponade and pericarditis
- a) E histolytica
- 17) the infective stage of heterophyes
- a) metacercaria
- 18) which one is false
- a) bacteria does conjugation and doesn't do dehydroxylation to produce secondary bile salts
- 19) to hydrolyze amylopectin we need
- a) Oligo-1,6- glucosidase isomaltase
- 20) If the flow is fast in the salivary duct then
- a)
- 21) which of the following doesn't increase gastric secretion
- a) Fear and depression
- 22)
